

First Fruits 2018

September 8, 2018

Beloved,

I am overjoyed to be named the Director of the Catholic Student Center! This ministry is critical to the life of the Church and I am humbled to be entrusted with such a task. Our call to **Courageously Live the Gospel** and to grow this ministry by 1000% over the next three years will ask much toil and sacrifice. Our youth are in great need here at USF and throughout the world and we will rise to meet the task. When seeing such a large and hungry crowd, perhaps we want to ask as Andrew did, "Lord, but what good are these for so many?" (John 6:9) But we can trust in the multiplications of blessings when our gifts are in the hands of the Lord. As your priest, I am entrusted as steward of those gifts. I present to you how I used your generous gifts in service of this important ministry. On the opposite side you will find our budget and actual statement for the fiscal year of 2017-2018. Please contact the office if you have any questions or would like more detail.

I would like to highlight some improvements that were made this past year with the help of your generosity. We were able to develop more of the back side of the Chapel by extending the sidewalk and patio and adding additional lighting to that area. These improvements have created a large usable space for liturgies and gatherings. The lighting also helps with parking in the grass lot during the evenings. For campus ministry, we added a full-time campus minister. Ms. Carly Bosse has been a great addition to our team and will be instrumental in growing our ministry to students.

Thank you for your wonderful generosity and support! As always, you are in my prayers and I am here to serve you. "May God bless the works of our hands." (Ps 90:17)

Courageously Living the Gospel,

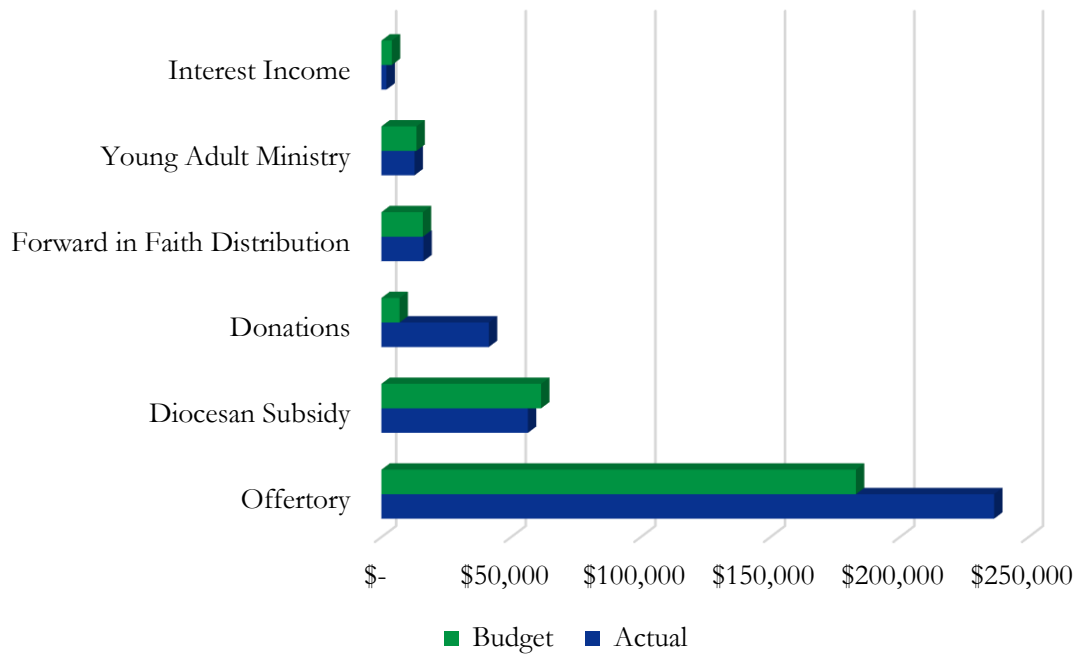

Father Justin Paskert
